Manufacturer Provided Description

The 251 Hybrid has all the features required of a family-friendly pleasure boat and a tournament-ready fishing platform. Wraparound seating with optional flip-out backrests put the comfort in bow riding when you're heading to your destination. They fold flush with the gunnel so they don't get in the way of getting after the fish. A standard bow boarding ladder makes for easy on-off when you're beaching, too. Forward and aft livewell/baitwells and storage for up to 21 rods along with optional features add a great deal of fishability to this roomy boat. And, the large dashboard on the head console provides ample room for a variety of electronics. No matter where your boating adventures take you, with the 251 Hybrid, you can feel confident you've got a boat that is more than up to the task.
