2025 Yamarin 80DC - 27 FOOT

Pompano Beach, Florida

YEAR	LENGTH	PRICE
2025	27 ft	\$211,130

Yamarin 80 27 - foot Day Cruiser innovatively combines the best features of a day cruiser and a walkaround.

Yamarin 80 DC differs from typical Nordic day cruisers and also from Yamarin's other models especially in the design of its bow deck, which provides access to the boat from the side. Access from the sheltered open seating area to the bow is located on the port side, whereas in most modern day cruisers access is typically in the middle of the boat.

AI Overview Learn more Here are some specs for the 2025 Yamarin 80 DC:

- **Length: 8.28 meters (27 ft 2 in)**
- **Beam: 2.62 meters (8 ft 7 in)**
- **Draught: 0.5 meters**
- **Engine: Single 225–300 horsepower Yamaha outboard**
- **Displacement: 2,220 kg (without engine)**
- **Fuel capacity: 300 liters**
- **Range: 160 nautical miles with a 20% reserve**
- **Maximum speed: 43 knots**
- **Most fuel-efficient speed range: Approximately 27 knots (1.6 liters per nautical mile)**
- **Seating capacity: 10**

The Yamarin 80 DC is a Nordic day cruiser that combines the best features of a day cruiser and a walkaround. It has a side deck instead of a step-through screen, and the bow deck provides access to the boat from the side. Other features include:

- **The Yamarin Q smart display, which integrates essential tools like the dashboard, Navionics charts, radio, and weather updates**
- **A clearly laid-out cockpit with designated places for screens, gauges, and the engine joystick**
- **Covered swimming platforms with non-slip floor surfaces**
- **A spacious storage space in front of the outboard**
- **An electrical WC and refrigerator**

Behind the opening windshield and the door of the new model, a recessed and sheltered passageway leads to the bow and is protected by a railing. In other respects, the bow deck is completely flat, so it is easy to move about in the bow when docking. It also makes an excellent place for a sunbed. Access along the side to the bow also enabled a larger bow cabin door opening compared to traditional solutions. This makes it easier to move between the bow cabin and the open space.

Yamarin 80 DC features a spacious bow cabin for sleeping, which is very well lit thanks to the large hull windows. There is also an opening hatch on the deck. On the port side, under the recessed passageway, there is a comfortable divan with a wonderful view out of the adjacent hull window. In addition, there is a separate, spacious WC in the bow. From the bow cabin there is also access to another spacious sleeping cabin located under the open space, where two adults can sleep comfortably.

The real heart of the boat, however, is its spacious open space where up to eight people can socialise in comfort. The pantry on the port side is equipped with a stove, refrigerator and sink, as well as good storage facilities. During cooking, the lid of the pantry opens into a handy worktop. The size of the socialising area in the boat's open space increases significantly when the backrest of the skipper's double bench is flipped forward. The back of the sofa in the stern also flips down, turning it into a sunbed.

The Yamarin Q smart display is an integral part of the boat, as is the Yamaha F300 V6 outboard. Standard equipment includes one 16" Q-display with Navionics electronic navigation charts
